

Industrial Finishing & Fluid Handling Systems

Your technical resource with local inventory, service, and support

THE PAINT PROJECT

A  CJ Spray Company

Paint & Powder

- Proportioners
- Electrostatic
- Bell atomizers
- Automatic & manual spray guns
- Metering & reporting

System Design

- Automation, reciprocators, robotics
- Conveyance
- Spray booths, air make-up, curtain wall
- Paint kitchen, circulation systems
- Pretreatment, Ovens

Fluid Transfer

- High volume pumps
- Piping systems
- Tanks, & level sensors
- Temperature control
- Sealant dispense

Sundries

- Paint booth filters & coatings
- Personal Protection Equipment
- Tapes & masking products
- Solvent storage
- Cleaning solvents

About CJ Spray, Inc.

In 1995, CJ Spray started as a distributor/wholesaler of equipment to spray, meter, mix and dispense liquids servicing consumer, contractor and industrial markets.

We offer cost effective off-the-shelf solutions or can design custom systems specific for your needs. After the sale we are here for training, service and a huge parts inventory with same day shipping or delivery. For more information please visit www.cjspray.com/industrial.

About The Paint Project, LLC.

The Paint Project has become New England's go-to specialists in spray equipment since our founding in 1984. We support both the industrial paint & powder finishing market, and professional contractor equipment. Our mission is to please our customers by being a technical resource that is always focused on customer service. Our capabilities include engineering, system design, automation, standard distribution, service, and training. So, whether you are looking to automate a new finishing line, or need service on an old paint sprayer, The Paint Project is your local resource that is dedicated to exceeding your expectations.

Questions? Need Assistance? Call us toll-free at 1-888-CJSPRAY (257-7729)

CJ Spray and The Paint Project can engineer, design and install your next finishing system. There is no project too big or too small. From a simple booth and air makeup unit, to a fully automated operation - we have the resources to meet your needs.

Training Support & Service

Many finishing system houses sell projects and then hand off to an equipment distributor for service and support. At CJ Spray and The Paint Project we are an all in one solution. We are an authorized distributor for all the equipment we sell, so you have one partner that will engineer, install, train and service you for years to come.

Liquid Paint Finishing

Liquid finishing is where we got our start. From pressure pots and spray guns to electronic proportioning with electrostatic guns, we have you covered. Our technical sales experts can recommend the right equipment for your material and application.

2K and 3K Proportioning

Bell Rotary Atomizers

Electrostatic

Air Assisted Airless

HVLP and Air Spray

Flow Meters and Controls
